- Private Wealth AUM at the relevant figure lakh crore (+the relevant figure YoY); family count up the relevant figure YoY
- Long-term credit rating upgraded to AA+ (Stable) by ICRA

SAARTHI Total Score:

BUY RANGE

Code	Dimension	Score	Evidence
S	Scalability of Core Engine	12/15	AMC AUM +33% YoY to INR 1.89L Cr with INR 11,610 Cr net flows.
A1	Addressable Market & Adjacency	9/10	India private credit hit USD 9.0 Bn in H1 2025 (+53% YoY).
A2	Asymmetric Pricing Power	10/15	Diversified mix offset 24% brokerage decline, validating partial pricing-power hedge.
R	Reinvestment Quality	13/15	PWM AUM +31% YoY to INR 1.96L Cr; family count +41%; PAT +14% (9M).
T	Track Record Through Adversity	8/10	Despite repeated SEBI interventions, AUM and ARR base continue to compound — institutional resilience.
H	Human Capital & Institutional DNA	9/10	Rashtriya Samman Patra recipient (top tax-payer FY95–FY99) signals early ethical commercial success.
I	Inflection Point Identification	11/15	ARR at 65% of net revenues (up from 61%); management guiding higher — measurable inflection.

SAARTHI Conviction Statement

Proprietary 7-dimension framework. Overall score 72/100 (BUY (70-84 range)).

04 Motilal Oswal Financial Services Ltd At A Glance

Motilal Oswal Financial Services, founded in 1987 by Motilal Oswal and Raamdeo Agrawal, has evolved from a research-driven equity broking house into one of India's most comprehensive financial services platforms. The company spans Capital Markets, Asset & Wealth Management, Housing Finance, and Alternative Investments, serving over 1,600,000 customers across 550+ cities through 2,500+ business locations. Research coverage of 300+ companies remains the firm's enduring competitive moat.

₹822.9	₹1,127.0	37.0%

05 Industry Overview

Indian Financial Services is a strategic shock absorber for the growth story. India is expected to have the relevant figure HNWIs by 2027 and become the fourth-largest private wealth market by 2028, with a the relevant figure projected rise in UHNWIs. The financial services sector is projected to nearly double profits by FY30, led by NBFCs growing at the relevant figure annually. Mutual fund penetration at just 5–the relevant figure reflects substantial latent growth opportunity. Private credit hit a record the relevant figure billion in H1 2025, up the relevant figure YoY.

- Mutual fund penetration at 5-the relevant figure — massive latent opportunity
- Financial savings shifting from gold/real estate to financial assets
- BSE-listed companies grew from 135 (1995) to 5,328 (Feb 2025)
- Private wealth set to be 4th-largest globally by 2028
- NBFCs growing at the relevant figure annually with improving asset quality
- Demographic dividend — large working-age population entering peak earning

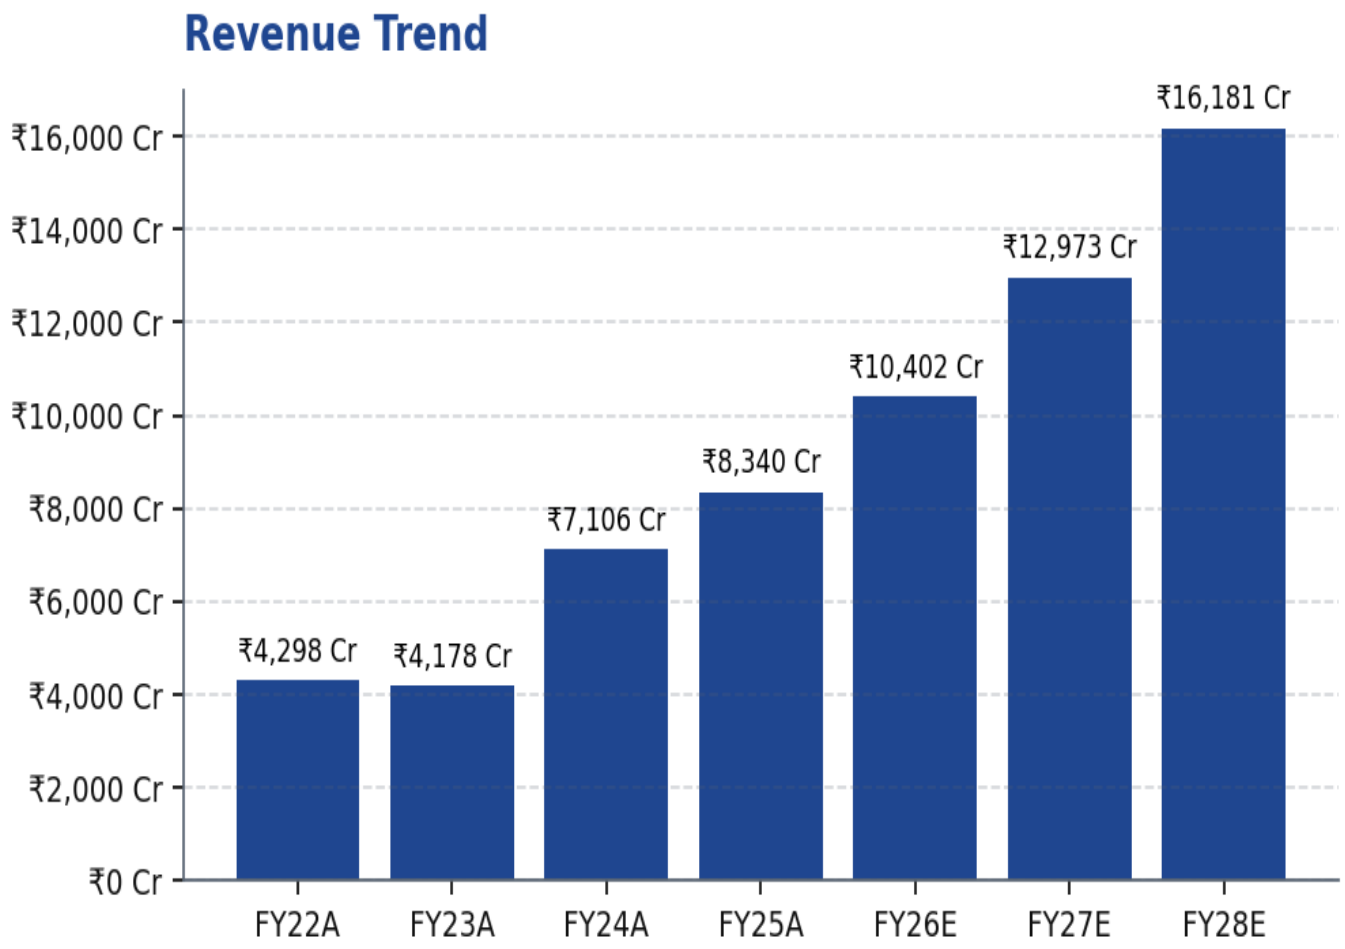
06 Key Highlights

Six themes underpinning the investment view.

- ARR Transformation: ARR at the relevant figure of net revenues (up from the relevant figure); fee-based at the relevant figure. Annuity income reduces transaction-cycle volatility.
- Profitability Momentum: Q2FY25 PAT the relevant figure Cr (+the relevant figure YoY); H1FY26 operating PAT the relevant figure Cr (+the relevant figure YoY); Asset & PWM businesses leading at +the rel
- AUM Scale and Outperformance: Total AUM the relevant figureL Cr (+the relevant figure YoY). AMC AUM the relevant figureL Cr (+the relevant figure) with the relevant figure Cr net flows. the relevant f
- Private Wealth Expansion: PWM AUM the relevant figureL Cr (+the relevant figure YoY); family count +the relevant figure YoY; PAT +the relevant figure (9M). Distribution book +the relevant figure YoY t
- Valuation Opportunity: CMP the relevant figure vs consensus TP the relevant figure (max the relevant figure) — the relevant figure upside. Probability-weighted target the relevant figure.
- Credit Upgrade: Long-term credit rating upgraded to AA+ (Stable) by ICRA. Net worth the relevant figure Cr (+the relevant figure YoY).

07 Revenue Trend

Revenue trajectory across the forecast period reflects mix shift and AUM scale-up.



Source: Tikona Capital model

08 Annual Financial Summary

Period	Revenue
FY22A	₹4,298.0 Cr
FY23A	₹4,178.0 Cr
FY24A	₹7,106.0 Cr
FY25A	₹8,340.0 Cr
FY26E	₹10,402.0 Cr
FY27E	₹12,973.0 Cr
FY28E	₹16,181.0 Cr

09 Quarterly Performance

Recent quarterly trajectory showing the variability inherent to the cyclical revenue base.

Quarter	PAT
Q2FY25	₹1,242.0 Cr
Q3FY25	₹715.0 Cr
Q4FY25	₹545.0 Cr
Q1FY26	₹425.0 Cr
Q2FY26	₹401.0 Cr

10 Segment Mix

Segment	Scale Metric	Latest	Notes
Capital Markets (Broking + IB)	Brokerage Rev YoY	-24%	Equity, derivatives, commodity, currency trading + institutional services and investment banking. Brokerage now contributes only 30% of total revenue, down from historical highs.
Asset Management	AMC AUM	INR 1.89L Cr (+33% YoY)	Mutual funds and PMS. 91% of AUM outperforming benchmarks over 3 years.
Private Wealth Management	PWM AUM	INR 1.96L Cr (+31% YoY)	HNI/UHNI advisory. Family count up 41% YoY.
Housing Finance	Loan Book	INR 6,630 Cr (+25% YoY)	Retail mortgage lending — affordable and mid-segment.
Alternative Investments	Carry Income	INR 58 Cr recurring	Private credit, real estate, alternatives.

11 Key Ratios

12 Valuation — Methods Summary

Probability-weighted target price reconciles bull, base, and bear cases.

Case	Target	Weight	Basis
Bull Case	1,400.0	30.0%	28x P/E on FY27E EPS of INR 50; ARR > 70%, AMC +40% YoY.
Base Case	1,127.0	50.0%	24x P/E on FY27E EPS of INR 47; ARR stable at 65%, steady AUM.
Bear Case	630.0	20.0%	18x P/E on depressed FY27E EPS of INR 35; sustained regulatory headwinds.

13 Scenario Analysis - Bull / Base / Bear Case with Assumptions

BEAR CASE - ₹630 (-23.4% vs CMP)

Macro Assumptions

Equity markets remain subdued. Revenue CAGR slows to 6.0%; EBITDA margin compresses to 45.0% as regulation and lower risk appetite pressure activity.

Business Assumptions

Broking headwinds and fee pressure reduce operating momentum. Sustained F&O headwinds, fintech share loss.

Valuation Assumptions

18x P/E on depressed FY27E EPS of INR 35; sustained regulatory headwinds. Target price ₹630, probability 20.0%, vs CMP -23.4%.

Metric	Bear Value
Revenue CAGR	6.0%
EBITDA Margin	45.0%
Target Price	₹630
Probability	20.0%
vs CMP	-23.4%

BASE CASE - ₹1,127 (+37.0% vs CMP) - PRIMARY RECOMMENDATION

Macro Assumptions

Markets normalize and savings flows remain constructive. Revenue compounds at 16.0%; EBITDA margin holds near 51.0% on steady AUM growth.

Business Assumptions

ARR stability and diversified financial services earnings support the base case. ARR steady at 65%, AUM compounding, stable regulation.

Valuation Assumptions

24x P/E on FY27E EPS of INR 47; ARR stable at 65%, steady AUM. Target price ₹1,127, probability 50.0%, vs CMP +37.0%.

Metric	Base Value
Revenue CAGR	16.0%
EBITDA Margin	51.0%
Target Price	₹1,127
Probability	50.0%
vs CMP	+37.0%

BULL CASE - ₹1,400 (+70.1% vs CMP)

Macro Assumptions

Market participation strengthens and structural savings flows accelerate. Revenue compounds at 27.5%; EBITDA margin expands to 55.0% with operating leverage.

Business Assumptions

ARR mix, AMC scale, and wealth management momentum trigger re-rating. ARR > 70%, AMC AUM +40% YoY, regulatory clarity.

Valuation Assumptions

28x P/E on FY27E EPS of INR 50; ARR > 70%, AMC +40% YoY. Target price ₹1,400, probability 30.0%, vs CMP +70.1%.

Metric	Bull Value
Revenue CAGR	27.5%
EBITDA Margin	55.0%
Target Price	₹1,400
Probability	30.0%
vs CMP	+70.1%

14 Key Catalysts

- ARR contribution crossing the relevant figure of revenues, triggering valuation re-rating from broking to asset management multiples - Sustained AMC AUM growth above the relevant figure YoY with net flows exceeding the relevant figure crore annually - Private wealth AUM growth above the relevant figure YoY with family count expansion - Operating leverage improvement with cost-to-income ratio declining - Regulatory clarity on F&O trading norms

- ARR contribution crossing the relevant figure of revenues, triggering valuation re-rating from broking to asset m...
- Sustained AMC AUM growth above the relevant figure YoY with net flows exceeding the relevant figure crore annually
- Private wealth AUM growth above the relevant figure YoY with family count expansion
- Operating leverage improvement with cost-to-income ratio declining
- Regulatory clarity on F&O trading norms

15 Management Team

Founder-led leadership with deep institutional DNA.

Name	Role	Background
Raamdeo Agrawal	Chairman, MOFSL & Chairman, AMC	Co-founder (1987). Creator of the QGLP investment process and 'Buy Right, Sit Tight' framework. Built one of India's most respected investment research franchises. Widely cited investment thinker.
Motilal Oswal	Founder, Chairman & MD	Co-founder (1987). Led the firm's transformation from broking house into a comprehensive financial services platform. Recipient of Rashtriya Samman Patra for being among the highest taxpayers FY95–FY99.
Navin Agarwal	Executive Board — Strategy & Capital Allocation	Joined 2000. Drives business strategy and capital allocation across the Group, building market-leading positions through disciplined deployment.
Ajay Menon	Executive — Operations, Compliance, Risk & Technology	Joined 1998. 27+ years in Indian capital markets. Cornerstone of operational excellence and technology initiatives across the Group.

16 Forensic / Governance — Monitor Closely

Recurring regulatory matters are operational rather than fraudulent. Despite SEBI interventions, structural lapses suggest deeper governance attention needed in risk management. Pattern warrants monitoring but does not impair the business model.

Matter	Description	Severity
SEBI — Margin Reporting Violations	INR 7 lakh penalty for margin reporting, collection violations, and other regulatory lapses found during inspection.	Low
SEBI — Client Fund Misutilization (2022)	INR 25 lakh fine for misutilization of client funds and inaccurate margin reporting.	Medium
NSEL — Misselling Accusations	Accused alongside other top brokers of misselling NSEL contracts, KYC manipulation, client code modification, and illegal transactions per SFIO/EOW findings.	High (Historical)
SEBI — Not Fit and Proper (Commodities)	Declared 'not fit and proper' as commodity derivative broker in Feb 2019 based on SFIO/EOW recommendations.	High (Historical)
Unauthorized Terminal Operations	13 NSE and 9 BSE terminals operating from undeclared locations including an unreported branch in Delhi.	Medium

17 Trading Strategy

Entry: the relevant figure-850. 15-the relevant figure discount to analyst consensus target — margin of safety. Position size: 3-the relevant figure of portfolio (institutional). Review: Quarterly. Downside exit: Stop-loss at the relevant figure (-the relevant figure from CMP) on technical break with high volume. Upside exit: Sell the relevant figure at the relevant figure-1,150 (30-the relevant figure gains) / Sell remaining at the relevant figure+ if multiples expand beyond the relevant figure P/E.

- ARR contribution above the relevant figure of net revenues
- AMC AUM growth above the relevant figure YoY with net flows > the relevant figure Cr
- PWM AUM growth above the relevant figure YoY with family count expansion
- Cost-to-income ratio declining
- SEBI compliance with no major enforcement actions

18 Key Risks

- SEBI regulatory headwinds on F&O trading norms compressing cyclical broking revenues
- Q2FY26 profit declined the relevant figure YoY and revenue the relevant figure YoY due to regulatory changes — residual cyclicality
- Competitive intensity from discount brokers and fintech platforms compressing yields
- Forensic / governance: recurring SEBI matters require monitoring (Monitor Closely category)
- Mark-to-market volatility on the proprietary book
- Housing finance asset-quality slippage in stressed credit cycles
